In accordance with 39 U.S.C. § 3642, 39 C.F.R. § 3020.30 and Order No. 2513,<sup>1</sup> the United States Postal Service (Postal Service) hereby requests that Global Expedited Package Services – Non-Published Rates 7 (GEPS – NPR 7) be added to the competitive product list within the Mail Classification Schedule (MCS). The Postal Service also gives notice, pursuant to 39 U.S.C. § 3632(b)(3) and 39 C.F.R. § 3015.5, that the Postal Service has created a GEPS – NPR 7 model contract.

Governors' Decision No. 11-6, the GEPS - NPR 7 Management Analysis, the GEPS - NPR 7 model contract, and the GEPS - NPR 7 financial model that includes maximum and minimum prices for GXG, PMEI, and PMI that establish compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5, are being filed separately under seal with the Commission. Redacted versions of the supporting financial documentation for the GEPS - NPR 7 model contract are included with this filing in separate Excel files.

## **II. Background**

The Postal Service's Governors established rates and the classification for GEPS - NPR by Governors' Decision 10-2,<sup>17</sup> and for GEPS - NPR 2 by Governors' Decision No. 10-7.<sup>18</sup> The changes that resulted in the rates and the classification for GEPS - NPR 3, GEPS - NPR 4, GEPS - NPR 4 Version 2, GEPS – NPR 5, and GEPS – NPR 6 were authorized by Governors' Decision No. 11-6, which states that with respect to Outbound International Competitive Agreements, such as GEPS - NPR 3, GEPS - NPR 4, GEPS - NPR 4 Version 2, GEPS – NPR 5, and GEPS – NPR 6, "management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission."<sup>19</sup>

GEPS - NPR 1 and 2 offered incentive pricing to small and medium-sized business mailers that satisfy prescribed capability requirements and that are willing to enter a contractual commitment to minimum levels of revenue from use of Priority Mail Express International (PMEI) and Priority Mail International (PMI) products. GEPS - NPR 3, 4, 5, and 6 offer such incentive pricing for not only PMEI and PMI, but also GXG.

<sup>17</sup> Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classification for Global Expedited Package Services - Non-Published Rates (Governors' Decision No. 10-2), July 14, 2010, Attachment 2 to Notice and Request of the United States Postal Service Concerning Global Expedited Package Services -- Non-Published Rates and Application for Non-Public Treatment of Materials Filed Under Seal, PRC Docket Nos. MC2010-29 and CP2010-72, July 16, 2010.

<sup>18</sup> Governors' Decision No. 10-7, Attachment 2 of Notice of the United States Postal Service concerning Global Expedited Package Services - Non-Published Rates and Application for Non-Public Treatment of Materials Filed Under Seal, PRC Docket No. CP2011-45, December 15, 2010.

<sup>19</sup> Governors' Decision No. 11-6, at 1-2. Governors' Decision No. 11-6 states, at 1, that "Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2)."

The Postal Service has decided to revise the Management Analysis, financial model, and model contract for GEPS – NPR. The changes in rates due to changes in the Management Analysis and financial model will affect more than just the inputs page of the GEPS NPR 6 financial model. Therefore, in accordance with Order Nos. 630,<sup>20</sup> 1625,<sup>21</sup> 1959,<sup>22</sup> and 2513,<sup>23</sup> the Postal Service is providing notice of GEPS – NPR 7, which is a change in rates not of general applicability for GEPS – NPR 6.

### **III. GEPS - NPR 7 Model Contract**

As noted above, the GEPS - NPR 7 model contract is almost identical to the GEPS - NPR 6 model contract that the Commission reviewed in Order No. 2513. The differences between the GEPS - NPR 7 model contract (Attachment 4 of this filing) and the GEPS - NPR 6 model contract reviewed by the Commission in Order No. 2513 include an additional Paragraph 33 concerning Conditions Precedent, which caused subsequent articles to be renumbered,

The changes do not affect the general market characteristics of the GEPS – NPR product, which continues to be designed for small- and medium-sized business mailers wishing to use international expedited delivery services for their correspondence and order fulfillment.

The major differences between the GEPS – NPR 7 and GEPS – NPR 6 are in the Management Analysis, the financial model, and the rates themselves. These changes to the GEPS - NPR product are authorized by Governors' Decision No. 11-6, which states that with respect to Outbound International Competitive Agreements, such

as GEPS - NPR 7, “management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.”<sup>24</sup>

The Commission anticipated that notice of new rates for GEPS - NPR would necessitate the addition of successor groupings under this competitive product. Contracts with customers offered rates established for GEPS - NPR 7 will be filed in the docket in which this notice was filed. Unless the Commission indicates otherwise, the Postal Service anticipates filing GEPS - NPR 5 Version 7 contracts in this docket, in filings that are similar to the Postal Service’s filings of GEPS – NPR 6 contracts.<sup>25</sup>

#### **IV. Application for Non-Public Treatment**

The Postal Service maintains that certain portions of Governors’ Decision No. 11-6, GEPS - NPR 7 Management Analysis, the GEPS - NPR 7 model contract, and the GEPS - NPR 7 financial model that includes maximum and minimum prices for PMEI, PMI, and GXG, as well as related financial information should remain confidential. As Attachment 1 to this Notice, the Postal Service files its application for non-public treatment of materials filed under seal. Consistent with Order No. 630 and as done for GEPS - NPR 2, GEPS - NPR 3, GEPS - NPR 4, GEPS - NPR 4 Version 2, GEPS – NPR, and GEPS – NPR 6 contracts, the Postal Service anticipates providing to the Commission the mailer agreements memorializing the sale of GEPS - NPR 7. A minimal amount of information in GEPS - NPR 7 agreements is considered to be

<sup>24</sup> Governors’ Decision No. 11-6, at 1-2. Governors’ Decision No. 11-6, at 1, states that “Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2).”

<sup>25</sup> In Order No. 2513, at 8, the Commission provided the following instructions concerning the filing of GEPS - NPR 6 contracts: “A copy of each contract, along with the financial model inputs used to generate rates for each contract, must be filed with the Commission within a reasonable time, e.g., within 10 days of the effective date of the contract.”

confidential, because of the commercially sensitive nature of the information or its identification of a particular customer. The Postal Service is including with this filing as Attachment 4, the GEPS - NPR 7 model contract, with some information redacted.<sup>26</sup>

The application for non-public treatment attached to this notice addresses the redactions to those materials, including some additional information that will be redacted in signed GEPS - NPR 7 agreements. When the Postal Service files actual customer agreements with the Commission in this docket, the Postal Service will rely on the application for non-public treatment included as Attachment 1 to this filing for protection of the information redacted from those materials. A full discussion of the requested elements of the application appears in Attachment 1.

## **V. Conclusion**

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that GEPS - NPR 7 is in compliance with the requirements of 39 U.S.C. § 3633. Accordingly, Global Expedited Package Services - Non-published Rates 7 should be added to the GEPS - NPR product grouping in the competitive products list of the MCS, to reflect the change in non-generally applicable rates for this competitive product.

<sup>26</sup> The Postal Service notes that the model agreement is for nationwide access to its network. Variations for other access options, including "Metro" and "ISC Drop Ship" are familiar to the PRC and the interested public from numerous GEPS 1, GEPS 2, GEPS 3, GEPS - NPR 2, GEPS - NPR 3, GEPS - NPR 4, GEPS - NPR 5, and GEPS - NPR 6 filings.

## **APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS**

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to a Notice of changes in prices for Global Expedited Package Services - Non-published Rates (GEPS - NPR 7). Governors' Decision No. 11-6, the GEPS - NPR 7 Management Analysis, the GEPS - NPR 7 model contract, and the GEPS - NPR 7 financial model (including the maximum and minimum prices for PMEI, PMI, and GXG and related financial information) are being filed separately under seal with the Commission, although redacted copies of the materials are filed with the Notice as Attachments 2A, 2C, and 4, and in separate Excel files.

The Postal Service hereby furnishes below the justification for this application required by 39 C.F.R. § 3007.21(c).

**(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);**

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. §

504(g)(3)(A).<sup>1</sup> Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

**(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;**

Third parties that may have a proprietary interest in the information in this filing include the designated operators or foreign posts with which the U.S. Postal Service settles accounts<sup>2</sup> and the PC Postage vendors authorized to offer services to contract rate customers. The Postal Service believes that it is possible that Federal Express (FedEx), which is involved in the provision of GXG, may have a proprietary interest in some of the information in this filing.

---

<sup>1</sup> The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

<sup>2</sup> Other postal operators can be considered to have a proprietary interest in some rate information in the financial workpapers included with this filing. The Postal Service maintains that such information should be withheld from public disclosure. In view of the practical difficulties, the Postal Service has not undertaken to inform all affected postal operators about the nature and scope of this filing and about the ability to address any confidentiality concerns directly with the Commission as provided in 39 C.F.R. § 3007.20(b). Due to language and cultural differences as well as the sensitive nature of the Postal Service's rate relationship with the affected foreign postal operators, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices to the relevant postal operators. The Postal Service identifies as an appropriate contact person Haley McKittrick, EMS Manager, International Postal Relations. Ms. McKittrick's phone number is (202) 268-4315, and her email address is Haley.E.Mckittrick@usps.gov. The Postal Service acknowledges that 39 C.F.R. § 3007.21(c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's filing in the absence of actual notice might be construed as beyond the scope of the Commission's rules, the Postal Service respectfully requests a waiver that would allow it to forgo providing a notice to each postal operator, and to designate a Postal Service employee as the contact person under these circumstances, since it is impractical to communicate with dozens of operators in multiple languages about this matter.

The Postal Service employee responsible for providing notice to the PC Postage Provider(s) with proprietary interest in the materials filed in these dockets is Ms. Kathy L. Lynch, Sales Support Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 5425, Washington, DC 20260-4017, whose email address is [kathy.l.lynch@usps.gov](mailto:kathy.l.lynch@usps.gov), and whose telephone number is 202-268-6662.

The point of contact for FedEx, with which the Postal Service has an alliance to offer Global Express Guaranteed, is:

James H. Ferguson  
Corporate Vice President  
Customer and Business Transactions,  
FedEx Corp. & General Counsel,  
FedEx Corporate Services, Inc.  
(901) 434-8600; [jhferguson1@fedex.com](mailto:jhferguson1@fedex.com)

Consistent with the Commission's instructions in Order No. 2513, the Postal Service will, in the future, file with the Commission GEPS - NPR 7 customer-specific agreements. Concerning those agreements, the customer with which the agreement is made would have a proprietary interest in the materials. Article 19 of the model agreement provides each customer with notice of the Postal Service's intent to file the agreement with the Commission and its intent to seek non-public treatment of the information the Postal Service determines may be withheld from public disclosure. The notice provides the customer with the docket number in which the agreement will be filed and gives the customer information about how to raise its confidentiality concerns directly with the Commission. Each customer will identify a point of contact in Article 31 of the contract, which the Commission may use, should it determine that there is a need to provide notice of information requests or anticipated disclosures in the future.

**(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;**

In connection with its Notice filed in this docket, the Postal Service included the applicable Governors' Decision, a GEPS - NPR 7 Management Analysis, a model contract, and a financial model that the Postal Service will use to generate customer-specific rates. These materials were filed under seal, with redacted copies filed publicly. The Postal Service maintains that the redacted portions of these materials should remain confidential as sensitive business information. Additionally, the model contract includes highlighted sections that may contain information that will be redacted when the customer-specific agreements are filed in this docket in the future.

Governors' Decision No. 11-6 is reproduced as Attachment 2A and includes as supporting materials an Attachment A. In addition, Attachments 2B through 2D provide information specific to Postal Service management's preparation of the GEPS - NPR 7 product description. Redactions appear on page two of Governors' Decision No. 11-6, pages one and two of Attachment A of that Decision, throughout the GEPS - NPR 7 Management Analysis (Attachment 2C) and the table of GEPS - NPR 7 GXG, PMEI, and PMI minimum and maximum prices (Attachment 2D, included in the financial workpapers). These redactions protect sensitive commercial information concerning the incentive discounts and their formulation, the applicable cost-coverage, and the non-published rates themselves.

With regard to the model GEPS - NPR 7 agreement filed in this docket as Attachment 4, some customer-identifying information appears in the highlighted sections of the agreement on page 1, in Article 31, in the signature block, and in the

footer of the agreement and its annex or annexes. This information constitutes the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2). Therefore, such information will be redacted in signed GEPS - NPR 7 agreements. Additional redactions appear in Articles 2, 7, 9, 11, 15, and 34. Along with the highlighted section of paragraph 1 of Article 11, which will also be redacted in signed GEPS - NPR 7 agreements, these redactions include information about PC Postage Providers, various penalties and interest that may be assessed under certain circumstances, the customer's revenue commitment, and the percentage of cost increase which may trigger a consequential price increase. In addition, the prices in the annexes of the GEPS - NPR 7 contracts will be redacted.

Any performance reports filed in this docket will typically show the actual revenue and cost coverage of the customer's completed contract. The Postal Service will redact all of the values represented in such performance reports as commercially sensitive business information and will also protect any customer identifying information from disclosure.

**(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;**

Governors' Decision No. 11-6 and its Attachment A, as well as Attachments 2C and 2D and the accompanying financial models, include the Postal Service's desired cost coverage for GEPS agreements, specific rate information and a detailed description of the methodology used to establish the rates, which are highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of knowing the range of prices that may be

offered by the Postal Service to its GEPS - NPR 7 customers for PMEI, PMI, and GXG with volume incentives applied and the contribution margin used to establish the prices. Thus, competitors would be able to take advantage of the information to offer lower pricing to the GEPS - NPR customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the expedited package services market.

Potential customers could also take advantage of the information in negotiating the specific rates to be applied to their circumstances, depending upon the downstream access choices they make and their revenue commitment level. They could demand the absolute floor, when it would otherwise be possible in some cases for the Postal Service to offer a higher, but still competitive rate.

If the portions of the contract that the Postal Service determined to be protected from disclosure due to its commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. Redacted information in the model contract (which is included as Attachment 4 to this Notice) includes various penalties and the percentage of cost increase which may trigger a consequential price increase. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the information to assess the offers made by the Postal Service to its customers for any possible comparative vulnerabilities and focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, potential customers could use the information to their advantage in negotiating the terms of their agreements with the Postal Service. The Postal Service

considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

Customer-identifying information redacted from the customer agreements could be used by competitors to target their marketing efforts on current USPS customers.

The redactions in the financial models include commercially sensitive business information from which the particular prices to be offered to specific customers are generated, while maintaining statutory cost-coverage requirements. Public disclosure of this information would give competitors an exact model of Postal Service pricing that could be used to develop lower pricing to present to customers in an attempt to convert them from contracts with the Postal Service.

Information in the financial models may also include sensitive commercial information related to agreements between the Postal Service and PC Postage Providers. Such information would be extremely valuable to competitors of both the Postal Service and the PC Postage Providers. Using detailed information about such an agreement, competitors would be able to better understand the costs of the postage programs used, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the PC Postage Providers could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service.

In addition, information in the financial spreadsheets consists of sensitive commercial information related to FedEx Express. Disclosures of information could be used by competitors of FedEx Express to develop alternatives to FedEx Express' products.

**(5) At least one specific hypothetical, illustrative example of each alleged harm;**

Identified harm: Public disclosure of established rates and the financial model and methodology used to generate the rates would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing expedited package delivery service obtains a copy of the unredacted version of the Governors' Decision, the financial model, or Management Analysis from the Postal Regulatory Commission's website. The competing service reviews the rates or the model or both and then sets its own rates for products similar to what the Postal Service offers its GEPS - NPR 7 customers under the Postal Service's rates. The competing service markets its ability to guarantee to beat the Postal Service on price for international expedited delivery services. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service out of the business-to-business and business-to-customer expedited delivery services markets for which the GEPS - NPR 7 product is designed.

Identified harm: Public disclosure of the rate charts in Attachment 2D would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: A customer with the rate information included in Attachment 2D could, on a cell by cell basis, demand the lowest possible rate in every rate cell, knowing that the Postal Service's approved rates include those floor amounts. Using the rate information, a customer could threaten that it would not use the Postal Service for its expedited

package service delivery needs if it did not receive the lowest possible rates. This would severely affect the Postal Service's ability to offer competitive but profitable rates to its customers within the minimum and maximum rates established by the Governors' for each rate cell.

Identified harm: Public disclosure of the information redacted from the model contract would provide competitors commercial advantages at the Postal Service's expense.

Hypothetical: A competitor is able to review the Postal Service's penalty clauses and underlying cost increase trigger for pass-through increases in pricing. The competitor takes that information and uses it to differentiate its own product from the Postal Service's product when it sells to potential customers, convincing those customers that the competitor's product is better.

Identified harm: Public disclosure of identifying information concerning a customer and of a performance report concerning a contract with that customer would give competitors a marketing advantage.

Hypothetical: A competitor is able to identify Postal Service customers being offered GEPS - NPR 7 rates for PMEI, PMI, and GXG from information provided on the PRC's website. The competitor uses this information to contact the customer directly and attempt to undersell the Postal Service and obtain new business from the Postal Service's customer. The competitor could use information included in a performance

report to “qualify” potential customers, choosing to focus marketing efforts only on those customers that have a mailing profile that is attractive to the competitor, based on its business operations.

Identified harm: Public disclosure of information in a GEPS - NPR 7 contract involving postage payment through a PC Postage Provider, and of information in related financial workpapers, would be used by the competitors of the PC Postage Provider to the Postal Service and/or the PC Postage Provider’s detriment.

Hypothetical: A firm competing with the customer’s PC Postage Provider obtains a copy of the unredacted version of a GEPS - NPR 7 contract involving postage payment through a PC Postage Provider, and financial workpapers, from the Commission’s website. The firm uses the information to assess the PC Postage Provider’s revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other PC Postage Providers in their negotiations with the Postal Service concerning financial arrangements that PC Postage Providers make with the Postal Service in the future.

Identified harm: Public disclosure of information in a GEPS - NPR 7 contract would be used by FedEx Express’ competitors to its detriment.

Hypothetical: A competing international delivery service obtains a copy of the

unredacted version of the financial workpapers and a GEPS - NPR 7 contract from the Postal Regulatory Commission's website. The competitor analyzes the contract and workpapers to assess FedEx Express' prices. The competitor uses that information to target its competitive offerings accordingly.

**(6) The extent of protection from public disclosure deemed to be necessary;**

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for international expedited and parcels products (including both private sector integrators and foreign postal administrations), as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

**(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof;**

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

**(8) Any other factors or reasons relevant to support the application.**

Consistent with PRC Order No. 2513, the Postal Service will file customer agreements in this docket. The Postal Service considers this Application sufficient to fulfill its regulatory requirements for justifying its determinations that the information redacted from those materials should be treated as non-public.

### ***Conclusion***

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.

ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE  
AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, INBOUND  
INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED  
COMPETITIVE RATES (GOVERNORS' DECISION NO. 11-6)**

March 22, 2011

**STATEMENT OF EXPLANATION AND JUSTIFICATION**

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments, but nonetheless arise from other sources, such as the Universal Postal Convention.

**Page 2**

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established all prices that will cover [REDACTED] [REDACTED] costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegee(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a quarterly basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant, new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

Management may also continue to present to the Postal Regulatory Commission for its review, as appropriate, rate and classification changes to succeed the minimum and maximum non-published rates in Decision Nos. 10-2 and 10-6.

**ORDER**

In accordance with the foregoing Decision of the Governors, the prices set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. ### **Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates**

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivalent instruments (collectively, each "product") will be [REDACTED]

[REDACTED]

The cost coverage for a product equals [REDACTED]

[REDACTED]

[REDACTED]

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Express Mail, Parcel Return Service, Priority Mail International, Express Mail International, International Priority Airmail, International Surface Air Lift, Inbound Air Parcel Post, Inbound Surface Parcel Post, Inbound Direct Entry, and Inbound International Expedited Services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

**RESTRICTED AND SENSITIVE BUSINESS INFORMATION - DO NOT DISCLOSE**

Prices established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C. § 3633(a)(3), which, as implemented by (39 C.F.R. § 3015.7(c)) requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)).

**CERTIFICATION OF GOVERNORS' VOTE  
IN THE  
GOVERNORS' DECISION NO. 11-6**

I hereby certify that the Governors voted on adopting Governors' Decision No. 11-6, and that, consistent with 39 USC 3632(a), a majority of the Governors then holding office concurred in the Decision.

### **Management's Analysis of the Prices and Methodology for Determining Prices for Negotiated Service Agreements under Global Expedited Package Services - Non-Published Rates 7 (GEPS - NPR 7)**

Through the establishment of Global Expedited Package Services Non-Published Rates (GEPS - NPR) 1, 2, 3, 4, 4 Version 2, 5, and 6,<sup>1</sup> management has streamlined the process for approving GEPS agreements, while maintaining their profitability and competitive positioning in the market. This improvement reduces the administrative time and effort required to navigate the regulatory process and eliminates uncertainty for both the customers and the Postal Service concerning the implementation and activation of the sales agreements.

#### **Overview of the GEPS - NPR 7 product**

The GEPS - NPR 7 product offers discounts based on revenue for Priority Mail Express International (PMEI), Priority Mail International (PMI), and Global Express Guaranteed (GXG). The Postal Service offers [REDACTED] based on a mailer's revenue commitments for GXG, PMEI, and PMI.

GXG is available for a GEPS - NPR 7 customer who chooses as its shipping software solution, postage payment through a permit imprint using USPS-provided Global Shipping Software (GSS) and/or postage payment through a USPS-approved PC Postage Provider that offers capabilities for programming rates for GXG. A customer who does not select postage payment through a permit imprint using USPS-provided Global Shipping Software (GSS) and/or postage payment through a USPS-approved

MC2015-23 and CP2015-65, May 7, 2015, Attachment 2B.

PC Postage Provider that offers capabilities for programming rates for GXG will not have access to the GEPS—NPR 7 discounted rates for GXG.

GEPS - NPR 7 PMEI and PMI prices are based on the level of downstream access: Nationwide, Metro, and/or International Service Center (ISC) Drop Ship.<sup>2</sup> Nationwide access does not restrict where a mailer enters, but the mail must be tendered at an approved Business Mail Acceptance Unit. The Metro offering requires that the mailer tenders at designated locations within 200 miles of an ISC to avoid domestic air transportation costs. The ISC Drop Ship service requires the mailer to tender directly to an ISC, thereby eliminating both domestic air and local surface transportation costs to the USPS. In addition, at the mailer's option, a further discounted ISC Presort Drop Ship service is available for PMEI and PMI, which requires the mailer not only to tender directly to an ISC, but also to meet certain specific preparation requirements.<sup>3</sup> In all cases, the mailer assumes responsibility and the costs associated with delivering to the point of tender. The following table summarizes the GEPS - NPR 7 options and potential pricing incentives for GXG, PMEI, and PMI based on customer revenue commitment level: A GEPS - NPR 7 customer is required to meet an annualized minimum commitment of at least two hundred thousand dollars (\$200,000) in postage paid for GXG, PMEI, PMI combined under a GEPS - NPR 7 agreement.

<sup>2</sup> A few GEPS agreements include a combination of downstream access options, when a customer has multiple shipping locations, one or more of which are in or proximate to cities where the Postal Service maintains an ISC.

At the mailer's option, the further discounted ISC Presort Drop Ship service would provide the following [REDACTED]

**Minimum and Maximum Prices for GXG, PMEI, and PMI**

GXG, PMEI, and PMI published rates are set by country of destination and weight of the article. Currently, GXG has a total of 8 price groups, while PMEI and PMI have a total of 17 price groups each. The weight steps for GXG, and PMEI, range from 0.5 pound to 70 pounds, and for PMI range from 1 pound to 70 pounds.

The minimum potential price for GXG under GEPS - NPR 7 is a [REDACTED] discount off of the retail rate. The minimum potential prices for PMEI and PMI under GEPS - NPR 7 are the prices that may be offered to a mailer making a revenue commitment [REDACTED]. Under these circumstances, the mailer could potentially be provided incentives resulting in prices that are [REDACTED].

[REDACTED] The potential minimum prices for each destination country group consist of the [REDACTED] and these establish the floor for PMEI and PMI prices for GEPS -NPR 7.

For PMEI and PMI, GEPS - NPR 7 customers who select postage payment through a permit imprint using USPS-provided Global Shipping Software (GSS) are required to meet minimum volume or weight requirements established for presentation of a manifest mailing and to use USPS-provided software to generate labels and customs declarations. Retail customers using Click-N-Ship™ receive incentives off the published rate for GXG, PMEI, and PMI. GEPS - NPR 7 customers would qualify for these incentives by using Click-N-Ship, even if they were unable to present the articles using a manifest mailing. Additionally, commercial customers who do not want to make the minimum revenue commitment required of a GEPS - NPR 7 contract but agree to tender a minimum of one hundred thousand dollars (\$100,000) in combined commercial plus postage for GXG, PMEI, PMI, and First-Class Package International Service, exclusive of any special services, may apply for Commercial Plus Pricing (CPP). CPP discounts are published and are discounted off published rates for GXG, PMEI, and

PMI. Potential GEPS - NPR 7 customers would also qualify for these incentives if they did not wish to sign a GEPS agreement.

The maximum potential price that GEPS - NPR 7 customers might pay for GXG, PMEI, and PMI are the prices resulting from Commercial Plus Pricing rates for the highest weight step in each of the destination country groups. [REDACTED]

[REDACTED] represent the ceiling for GEPS - NPR 7 rates. The prices in Governors' Decision No. 14-05 are the basis for the GXG, PMEI, and PMI ceiling prices for the GEPS - NPR 7 product grouping.<sup>4</sup> In Governors' Decision No. 14-05, the Governors determined to change the published prices for GXG, PMEI, and PMI, establish new zoned prices based on origin Zip Code for PMI destined to Canada, and increase the maximum weight for PMI for Rate Group 17 (Netherlands). The prices in Governors' Decision No. 14-05 became effective May 31, 2015.<sup>5</sup>

The minimum and maximum prices representing the floor and ceiling for GXG, PMEI, and PMI prices under GEPS - NPR 7 are included in the GEPS - NPR 7 financial workpapers. The range of prices included in each cell represents all of the potential prices in one-cent increments which are to be considered for each cell, as if each one-cent increment actually appeared on the table. The potential prices that could be offered for GEPS - NPR 7 for GXG, PMEI, and PMI, as authorized in Governors' Decision No. 10-7<sup>6</sup> and Governors' Decision No. 11-6<sup>7</sup>, are all of the prices, in one-cent increments, between the minimum and maximum prices appearing in each rate cell listed by country group and the weight steps available to the applicable destinations.

As an example, for PMEI, a GEPS mailer sending an item weighing four pounds to a destination in country Group 1 using ISC Drop Ship could potentially be offered a price [REDACTED] including every price between the two in one-cent increments [REDACTED]. The exact price would be determined by applying a consistent methodology to the downstream access option, payment option and revenue commitment choices made by the customer.

<sup>7</sup> Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (Governors' Decision No. 11-6), March 22, 2011.

## **Pricing Methodology**

Management's pricing methodology begins with the cost coverage evaluation of the Postal Service's published prices. The absolute floor for GEPS pricing, not including the further discounted ISC Presort Drop Ship service, is defined by the incentives offered to [REDACTED] for the lowest weight step at each country rate group available. For customers who elect to also receive ISC Presort Drop Ship service, the absolute floor for GEPS pricing is defined by the incentives offered to [REDACTED]. For each of these price cells, the Postal Service determines if there is cost coverage to support the applicable GEPS Non-published Rate.

Rate design involves the following constraints applied to each price cell:

- If the fully discounted price covers less than [REDACTED] then the mailer is offered either the published price or a smaller percentage discount off the [REDACTED] that covers the [REDACTED] attributable costs; or
- If the fully discounted price covers [REDACTED] or more of attributable costs, then the mailer is offered a price up to the full discount.

To ensure that the prices are not stale in comparison to indices used as cost inputs or in comparison to foreign exchange rate fluctuations, management updates these factors on a monthly basis, but the rates generated will always be in accordance with the rate design set forth in the previous paragraph.

## **Financial Review**

The application of the cost coverage mechanism described above results in prices offered to customers that will meet the thresholds established by statute and by regulation, based on an analysis of historical customer volumes. Management modeled a 12-month forward looking cost coverage analysis of the prices based on the volume and mailing profile of the GEPS agreements for a 12-month period.

The chart below demonstrates the expected cost coverages for GEPS agreements based on a 12-month historical profile of GEPS customers' mailing patterns, from October 2013 through September 2014. This historical volume, revenue and contribution [REDACTED]. The model demonstrates that the rates for GXG, PMEI, and PMI designed from the GEPS price formula would comfortably cover attributable costs.

	Volume	Total USPS Revenue	Estimated Cost	Estimated Contribution	Cost Coverage
[REDACTED]					

## **Regulatory Review and Contract Implementation**

The Postal Service will submit prices to the Postal Regulatory Commission (PRC) for [REDACTED] in support of its notification to the PRC of these new rates not of general applicability. These prices will represent the price floor for sales contracts offering GEPS - NPR 7 GXG, PMEI, and PMI rate incentives. [REDACTED] represent the ceiling for GEPS - NPR 7 rates.

The Postal Service will continue to use a standard contract for GEPS - NPR 7, a product offered to customers in the small to medium sized enterprise market for PMEI and PMI, as well as for GXG. The GEPS - NPR 7 model agreement is included with this analysis and is a slightly modified version of the GEPS - NPR 6 model contract that was reviewed by the Commission in PRC Docket No. MC2015-23 and CP2015-65 in Order No. 2513.<sup>8</sup> There are only a few differences between the GEPS - NPR 7 model agreement and the GEPS - NPR 6 model contract, such as an additional Article 33 Conditions Precedent.

In accordance with Governors' Decision No. 10-7 and Governors' Decision No. 11-6, the Postal Service will file the GEPS - NPR 7 product with the PRC. The filing will include this Management Analysis. Also, consistent with PRC Order No. 2513,<sup>9</sup> the Postal Service will provide a copy of each GEPS - NPR 7 customer agreement to the PRC, along with the financial cost inputs used to generate the rates for the customer, and the effective date of each GEPS - NPR 7 agreement. All contracts using the GEPS - NPR 7 model customer contract and the rates in this Management's Analysis will be filed in a single docket and will be reported as a single competitive product in the appropriate Annual Compliance Report. Each GEPS - NPR 7 contract will bear a serial number and subsequent information filed with the PRC concerning a specific contract, will be filed with reference to the docket and serial number.

With GEPS - NPR 7, the Postal Service provides the prices within the established range to qualified customers applying for the incentives, using the methodology described above. Once a customer signs a GEPS - NPR 7 agreement under this pricing approach, the Postal Service begins the customer's incentive program as soon as the Postal Service and the customer are ready to implement it.

## **Benefits**

In Order No. 728, the PRC stated that the development of the GEPS - NPR agreements “established an efficient process for the approval of GEPS agreements.”<sup>10</sup> The methodology and process for implementing GEPS - NPR negotiated service agreements has proved advantageous. Under the GEPS - NPR process, the Postal Service has not had to certify the cost coverage of each contract, justify the addition of each contract to the competitive products list, and delay implementation of the customer incentives for mailing pending a positive review of the agreement by the PRC. The PRC, for its part, has not had to establish a docket for each contract, assign a Public Representative to review the contracts and related financial documents, and issue orders to add each contract to the competitive products list. It is anticipated that the GEPS - NPR 7 process will be quite similar to the GEPS - NPR 6 process, providing both the Postal Service and the PRC the means to decrease administrative costs associated with the GEPS contract review process. Since Postal Service revenues fund both organizations, savings to either organization result in overall savings for the Postal Service.

Additionally, the GEPS - NPR process makes it possible for the Postal Service to serve customers more effectively by enabling the Postal Service to promptly enter into sales contracts, instead of waiting for regulatory review of each individual contract and for a determination of each contract's functional equivalency to the established product grouping. As a result, the Postal Service is positioned better against competitors, and customers now have the certainty of knowing that when they sign a GEPS - NPR agreement with the Postal Service, they have a binding contract, not just a preliminary agreement that is contingent upon final regulatory review.

## **Summary**

The prices and methodology employed in the GEPS - NPR 7 product grouping proposal are appropriate for the highly competitive international expedited delivery service market, which includes small to medium sized enterprises as mailers. When a customer opts to tender mail at a location that reduces costs to the Postal Service, the GEPS - NPR 7 rates reward the customer with pricing incentives. Likewise, when a customer commits to a fixed level of revenue for PMEI and PMI (which are strong contribution products) as well as GXG, the Postal Service rewards the customer with pricing incentives that compete with other international expedited delivery service providers while maintaining the cost coverages necessary to make a positive contribution to the Postal Service's institutional costs. This change from the GEPS - NPR 6 price floor and ceiling [REDACTED] which is in accordance with the prices for GXG, PMEI, and PMI approved by the Governors in Governors' Decision No. 14-05, will ensure that GEPS-Non-Published Rates continue to make a positive contribution to the Postal Service's bottom line.

### **Certification As To The Prices For Determining Prices For Applicable Negotiated Service Agreements Under Global Expedited Package Services - Non-published Rates 7**

I, Joseph G. Hurley, Acting Manager of Revenue Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the prices that establish the price floor and the price ceiling for negotiated service agreements under the Global Expedited Package Services - Non-published Rates product grouping, which are presented in Attachment 2D. I am also familiar with the methodology described in Attachment 2C for determining the prices for customer-specific agreements. The prices contained in this filing were established in accordance with the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates, issued March 22, 2011 (Governors' Decision No. 11-6), which established prices by means of price floor formulas.

I hereby certify that these prices are determined in a manner that satisfies applicable pricing criteria, using appropriate and accurate data. If the Postal Service were to enter into agreements and offer services that set prices at or above the price floors using the methodology described in Attachment 2C, the Postal Service would be in compliance with 39 U.S.C. § 3633(a)(1), (2) and (3). The minimum prices that establish the price floor and the methodology for determining the rates for individual customers provide that the agreements under Global Expedited Package Services—Non-published Rates should cover the product grouping's attributable costs, based on a distribution of historical customer volumes, and preclude the subsidization of competitive products by market dominant products. Even if all the agreements under Global Expedited Package Services - Non-published Rates were assigned prices at the price floor for the corresponding downstream access option, the prices and methodology used should prevent the product group from impairing the ability of competitive products on the whole to cover an appropriate share of institutional costs.

## Statement of Supporting Justification

I, Giselle Valera, Managing Director and Vice President, Global Business, am sponsoring the Request that the Postal Regulatory Commission (Commission) add the Global Expedited Package Services (GEPS) Non-Published Rates 7 (GEPS - NPR 7) product filed in Docket Nos. MC2015-23 and CP2015-29 to the competitive products list for prices not of general applicability. The proposed revised Mail Classification Schedule (MCS) language for GEPS - NPR 7 describes the requirements for this product. My statement supports the United States Postal Service's (Postal Service's) Request by providing the information required by each applicable subsection of 39 C.F.R. § 3020.32. I attest to the accuracy of the information contained herein.

- (a) *Demonstrate why the change is in accordance with the policies and applicable criteria of the Act.*

The addition of this new product is in accordance with the policies and applicable criteria of the Act, because GEPS - NPR 7 is a product designed to increase the efficiency of the Postal Service's processes and enhance its ability to compete in the marketplace, while assuring that the product is not subsidized by market dominant products, covers the costs attributable to it, and does not cause competitive products as a whole to fail to make the appropriate contribution to institutional costs.

- (b) *Explain why, as to market dominant products, the change is not inconsistent with each requirement of 39 U.S.C. § 3622(d), and that it*

*advances the objectives of 39 U.S.C. § 3622(b), taking into account the factors of 39 U.S.C. § 3622(c).*

Not applicable.

- (c) *Explain why, as to competitive products, the addition, deletion, or transfer will not result in the violation of any of the standards of 39 U.S.C. § 3633.*

GEPS - NPR 7 is a product designed to enable the Postal Service's sales force to quickly establish, based on customer revenue commitments, selection of downstream access option, and projected mailing profile, whether a GEPS-type agreement will be profitable enough to justify entering into an incentive-based mailing plan with that customer for Priority Express Mail International (PMEI) and Priority Mail International (PMI), as well as Global Express Guaranteed (GXG). The customer has the option of selecting postage payment through a permit imprint using USPS-provided Global Shipping Software (GSS) or through a USPS-approved PC Postage Provider that may offer capabilities for programming rates for GXG. To accomplish this goal, the product design for GEPS - NPR 7 includes actual rates that, on a cell-by-cell basis, cover their costs or default to the lowest published rate, which the customer could get, even without a specific arrangement with the Postal Service.<sup>1</sup> Governors' Decision No. 11-6 authorized Postal Service management to prepare, for any product within the Outbound International Competitive Agreement grouping, a product description, including text for inclusion in the MCS, and present such product

---

<sup>1</sup> The product design for GEPS – NPR 7 is a revision of the product design for GEPS - NPR 1 approved by the Governors in Governors' Decision No 10-2, the product design for GEPS – NPR 2 approved by the Governors in Governors' Decision No 10-7, and the product design for GEPS – NPR 3, GEPS – NPR 4, GEPS – NPR 4 Version 2, GEPS – NPR 5, and GEP – NPR 6 authorized by the Governors in Governors' Decision No.11-6

description to the Commission. The product description for GEPS - NPR 7 is set forth in Attachments 2B, 2C, and 2D which establish the prices and classifications for GEPS NPR 7.

The Postal Service's financial modeling in support of the GEPS - NPR 7 product included a cost-coverage analysis that was based on the actual mail volume and profile of the GEPS - NPR customer contracts that were in effect from October 2013 through September 2014. This modeling demonstrated that GEPS - NPR 7, approved by the Governors and applied to the historical mailing profile of GEPS – NPR customers resulted in adequate cost coverage to ensure that no cross subsidization of this product by market-dominant products should occur. It also demonstrated that this new product should be able to contribute to institutional costs in addition to covering its own attributable costs.

- (d) *Verify that the change does not classify as competitive a product over which the Postal Service exercises sufficient market power that it can, without risk of losing a significant level of business to other firms offering similar products: (1) set the price of such product substantially above costs, (2) raise prices significantly; (3) decrease quality; or (4) decrease output.*

The addition of the GEPS - NPR 7 product to the competitive products list will not result in classifying a product over which the Postal Service has market dominance as a competitive product. The GEPS - NPR 7 product consists of sales of PMEI, PMI and GXG, which are a small part of all international revenue received by the Postal Service. International revenue makes up a tiny fraction of total Postal Service revenue. In the recent annual reports of two of the Postal Service's competitors in the international package delivery market, Federal

Express reported international revenue of \$8.68 billion for FY2014, and United Parcel Service reported international revenue for \$12.99 billion for FY2014. The Postal Service does not maintain a position of dominance in this market.

- (e) *Explain whether or not each product that is the subject of the request is covered by the postal monopoly as reserved to the Postal Service under 18 U.S.C. § 1696, subject to the exceptions set forth in 39 U.S.C. § 601.*

The GEPS - NPR 7 product consists of PMEI and PMI (and Global Express Guaranteed (GXG) if the customer selects postage payment through a permit imprint using USPS-provided Global Shipping Software (GSS) or if the customer selects postage payment through a USPS-approved PC Postage Provider that offers capabilities for programming rates for GXG). PMEI, PMI, and GXG are all classified as competitive products, falling outside the scope of the Private Express Statutes.

- (f) *Provide a description of the availability and nature of enterprises in the private sector engaged in the delivery of the product.*

As noted in part (d) above, major competitors in the market for Priority Mail Express International and Priority Mail International include Federal Express and United Parcel Service, which are widely available to customers in the United States. Private consolidators, freight forwarders, and integrators also offer international shipping arrangements whereby they provide analogous delivery services under similar conditions.

- (g) *Provide any available information on the views of those who use the product on the appropriateness of the proposed modification.*

Customers using the GEPS 1, GEPS 2, and GEPS 3 products have commented on their frustration with the regulatory process associated with implementing the agreements. Until their agreements are added to the competitive products list of the Mail Classification Schedule, they encounter risks if they make changes to their businesses and processes prior to receiving confirmation that the rates are available for them to use. When they do business with the Postal Service's competitors, they are able to commit to a discounted shipping solution and immediately begin receiving the benefits.

Additionally, customers express frustration if they receive a provisional offer of prices from the Postal Service, which later must be rescinded because the customer's projected mailing profile shows that the GEPS agreement will not be able to cover its attributable costs.

The GEPS - NPR 7 product, like the GEPS - NPR 1, GEPS - NPR 2, GEPS - NPR 3, GEPS - NPR 4, GEPS - NPR 5, and GEPS - NPR 6 product, should address these problems by eliminating the need for each agreement to be added to the competitive products list individually and by making the rates for each weight step and country group destination based on certain factors and downstream access option available immediately for the customer's consideration.

I am not aware of any negative views from users of PMEI and PMI, GEPS 1, 2 and 3, and GEPS - NPR 1, GEPS - NPR 2, GEPS - NPR 3, GEPS - NPR 4, GEPS - NPR 5, and GEPS - NPR 6 concerning the proposal to add GEPS - NPR 7 to the competitive products list.

- (h) *Provide a description of the likely impact of the proposed modification on small business concerns.*

The business concerns that engage in international package delivery services typically are not small business concerns, because of the resources necessary to compete in the industry. Large shipping companies, consolidators, and freight forwarders serve this market, particularly with respect to the type of customers represented by the GEPS - NPR 7 product; the Postal Service is unaware of any small business concerns that could offer comparable service for these volumes.

The small business concerns utilizing the GEPS - NPR 7 product will likely observe a positive impact. By offering GEPS - NPR 7, the Postal Service will be able to more quickly provide the small businesses access to pricing incentives that will help them reduce their own cost of doing business.

- (i) *Include such other information, data, and such statements of reasons and bases, as are necessary and appropriate to fully inform the Commission of the nature, scope, significance, and impact of the proposed modification.*

None of the numerous contracts presented to the Commission as GEPS 1, GEPS 2, and GEPS 3 contracts were rejected by the Commission. For each of these contracts that was added to the competitive product list, the Postal Service also filed a notice of the effective dates of the contract and a financial report of the contract's performance.

The GEPS-associated administrative costs to both the Postal Service and the Commission are substantial in comparison to the individual contribution that each GEPS agreement can produce. Collectively, the GEPS agreements make

a substantial contribution to international revenue and are certainly worthwhile to both the Postal Service and its customers. By refining the reformulation of the product into a niche classification as GEPS - NPR 7, the Postal Service loses a minimal amount of pricing flexibility to capture more significant investment of time and resources and brings a better product to its customers.

**12. Term Of The Agreement.** The USPS will notify the Mailer of the Effective Date of the Agreement as soon as possible, but no later than thirty (30) days, after receiving the signed Agreement from the Mailer. The Agreement shall remain in effect for one calendar year from the Effective Date or the last day of the month which falls one calendar year from the Effective Date, whichever is later, unless terminated sooner pursuant to Article 13 or Article 14.

**13. Termination of the Agreement.** (1) Either Party to this Agreement, in its sole discretion, may terminate the Agreement for any reason, without cost, fault, or penalty, except as provided for in paragraph 2 below, regardless of whether either Party is in default, upon a thirty (30) day written notification, unless a time frame longer than thirty (30) days that falls within the term of the Agreement is indicated by the terminating Party. (2) In the event that this Agreement is terminated for any reason before the termination date provided for in Article 12, any penalties arising under Articles 9, 34, and 35, or any one of them, shall be enforceable, and the minimum commitment in Article 11 shall be enforceable but shall be calculated on a *pro rata* basis to reflect the actual duration of the Agreement.

**14. Modification of the Agreement.** (1) Any modification of this agreement or additional obligation assumed by either party in connection with this agreement, with the exception of changes to prices under the terms of Article 15, shall be binding only if placed in writing and signed by each party. (2) Modifications may be contingent upon any and all necessary approvals by USPS management's executive committee, the Board of Governors of the USPS, the Governors of the USPS, the Postal Regulatory Commission, and/or any other governmental body with oversight responsibility for the USPS. (3) If such approvals are required, the modifications will not become effective until such time as all necessary approvals are obtained. (4) The USPS will notify the Mailer of the date the modification becomes effective within thirty (30) days after receiving the approval of the entities that have oversight responsibility for the USPS. (5) The USPS shall have no obligation to notify the Mailer of the status of the approval process or of potential fulfillment of the approval process. (6) Any changes to or modification of the local agreement referred to in Article 7, Paragraph 4 are not subject to the provisions of this article.

**15. Postage Updates.** (1) In the event that the USPS incurs an increase in costs [REDACTED] the USPS shall notify the Mailer and modify the prices established under this Agreement. [REDACTED] (2) The USPS will give the Mailer thirty (30) days' notice of changes to the prices in Annex 1 and Annex 2. (3) Any revision of prices in Annex 1 and Annex 2 shall not be retroactive. (4) No price shall increase beyond the non-discounted published price for the affected service.

**16. Customs Duties and Taxes.** Customs duties, taxes, and/or fees for packages mailed under this Agreement are the responsibility of the addressee.

**17. Entire Agreement and Survival.** This Agreement, including all Annexes thereto and any corresponding written local pickup agreement, shall constitute the entire agreement between the Parties regarding customized prices for Priority Mail Express International, Priority Mail International, and Global Express Guaranteed commencing on the Effective Date of the Agreement, and any prior understanding or representation of any kind preceding the date of this Agreement shall not be binding upon either Party except to the extent incorporated in this Agreement. The provisions of Article 7, Paragraph 5; Article 8, Paragraph 5; and Article 19 shall expire ten (10) years from the date of termination or expiration of this Agreement.

**18.
